DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art, Mueller, teaches a casing having an outer ring, a middle ring, and inner ring, a propulsion system and an outer shell (62); however, Mueller fails to teach "a cradle positioned in the center of the vehicle, the cradle having an upper portion, a bottom portion, an upper rim extending around the upper portion, and a plurality of semicircle support members attached to the upper rim extending concavely from one side of the rim to the opposite side, said cradle attached to the inner ring at a set of connection points positioned ninety degrees apart from the middle ring connection points", the combination of the propulsion system and the cradle wherein "the weight of the propulsion system maintains the cradle in an upright position during movement of the vehicle".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bena Miller whose telephone number is 571.272.4427. The examiner can normally be reached on Monday-Friday.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
